

Dilute 2 to 4 ounces of EcoEXEMPT® IC² per gallon of water. Apply 1 to 2 gallons of emulsion to each mound area by sprinkling the mound until it is wet and treat a 4 foot diameter circle around the mound. Use the higher volume for mounds larger than 12 inches. For best results, apply in cool weather, such as the early morning or late evening hours, but not in the heat of the day.

MOSQUITO CONTROL AND OTHER BITING FLIES - OUTDOOR YARD OR BARRIER TREATMENT:

To control adult mosquitoes and other biting flies using ground application, dilute 1 to 3 fluid ounces of EcoEXEMPT® IC² per gallon of water. Treat harborage areas such as shrubbery and vegetation where mosquitoes/flies may rest. Shrubby and vegetation around stagnant pools, marshy areas, ponds and shorelines may be treated. Repeat as necessary.

USE ON TURF AND GRASS:
Used alone as a contact spray.

To control Ants, Armyworms, Billbugs, Chinch Bugs, Chiggers, Crickets, Cutworms, Earwigs, Fleas, Grasshoppers, Hyperodes Weevils (adults), Japanese Beetles (adults), Mole Crickets, Sod Webworms and Ticks, dilute in a compressed air sprayer (or backpack) 2 to 4 ounces of EcoEXEMPT® IC² per gallon of water and apply at the rate of 2 to 4 gallons per 1000 square feet or until area is thoroughly wet. For power sprayers mix approximately 2 to 4 ounces per gallon of water and apply until area is sufficiently covered (usually min. 4 gallons per 1000 square feet with power sprayer). Exceeding rates may create potential phytotoxicity of turf surfaces.

USE ON TREES AND SHRUBS:

To control Mites, Scale Insects, Mealybugs, Aphids, Lace Bugs, Whiteflies, Tent Caterpillars, Bagworms and Beetles, dilute up to 1 to 2 ounces of EcoEXEMPT® IC² per gallon of water and apply using a compressed air sprayer or power sprayer until foliage is thoroughly wet. Maintain agita-

tion. Exceeding rates may create potential phytotoxicity on plant surfaces.

Dilute with enough water to obtain thorough coverage

FOR TERMITE TREATMENT - TO CONTROL TERMITES, PARTICULARLY SWARMERS:

Dilute 1 to 3 ounces of EcoEXEMPT® IC² per gallon of water and apply as a surface spray at the rate of 1 gallon per 750 square feet. Apply as a crack and crevice treatment to the locations from which the termites are emerging.

KEEP ALL PESTICIDES OUT OF THE REACH OF CHILDREN

STORAGE AND DISPOSAL

FOR CONTAINERS LARGER THAN ONE GALLON: Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage and Spill Procedures: Store upright at room temperature. Avoid exposure to extreme temperatures. In case of spill or leakage, soak up with an absorbent material such as sand, sawdust, earth, fuller's earth, etc. Dispose of with trash.

Container Disposal: Triple rinse or its equivalent, then offer for recycling or reconditioning, or puncture and dispose of with ordinary trash.

FOR CONTAINERS ONE GALLON AND SMALLER:

Storage: Store in original container in a dry cool place inaccessible to children and pets. **Disposal:** Do not reuse container. Discard in trash.

Question or Comments: Call 1-888-326-7233 weekdays, 9 a.m. to 5 p.m. EST.

EcoEXEMPT® IC²

Plantscape Concentrate

a blend of plant oils tested and proven to kill and control a broad spectrum of insects.

ACTIVE INGREDIENT:

Rosemary Oil10.0%
Peppermint Oil2.0%

OTHER INGREDIENTS:

Oil of Wintergreen, Mineral Oil USP, Vanillin88.0%
TOTAL 100.0%

- **New, softer fragrance**
- Provides rapid knockdown/kill and residual protection.
- For interior and exterior plantscape applications
- Safe for use in and around sensitive accounts.
- Minimum risk pesticide.
- Safe around children and pets.

NET CONTENTS: 1.0 GALLONS

CAUTION

FIRST AID

IF IN EYES: Flush with plenty of water. Seek medical attention if irritation persists.

IF ON SKIN: Wash with soap and water.

IF INHALED: Remove exposed person(s) to fresh air.

IF SWALLOWED: Rinse mouth out with water. Do not induce vomiting. Seek medical attention if feeling sick or nauseous.

PRECAUTIONARY STATEMENTS

May cause eye and skin irritation. Avoid contact with eyes, skin and clothing.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Persons handling concentrate are recommended to wear:

- Protective eyewear
- Chemical resistant gloves made

of neoprene, nitrile or natural rubber.

User Safety

Recommendations

User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing immediately if the product gets inside. Wash thoroughly and put on clean clothing. Remove PPE after handling this product. Wash the outside of the gloves before removing.

PHYSICAL AND CHEMICAL HAZARDS

Do not use, pour spill or store near heat or open flame. Store only in original container.

DIRECTIONS FOR USE

When spraying foliage for foliar insects, use medium to coarse spray.

IMPORTANT - AGITATE FREQUENTLY BY SHAKING.

When using this product as a space spray in food processing plants, foods should be removed or covered during treatment. Do not apply as a space spray while food processing is underway. Food processing surfaces and equipment must be covered during treatment or cleaned with an effective detergent and rinsed, with potable water before reuse. Food processing operations may continue when this product is applied as a surface spray with care and in accordance with the directions and precautions given below.

SHAKE WELL BEFORE USING.

Maintain agitation in all spray systems EcoEXEMPT® IC² is intended for use in and around buildings and structures.

INDOOR USE AREAS: Includes, but is not limited to, apartment buildings, bakeries, beverage plants, bottling facilities, breweries, cafeterias, candy plants,

canneries, cereal processing and manufacturing plants, dairy barns, poultry facilities, flour mills, food processing plants, frozen food plants, homes, hospitals, hotels, houses, industrial buildings, kennels, kitchens, laboratories, manufacturing facilities, mausoleums, meat processing and packaging plants, meat and vegetable canneries, motels, nursing homes, office buildings, restaurants, schools, stores, supermarkets, warehouses and similar structures.

OUTDOOR AREAS: Includes, but is not limited to, building foundations, dairy facilities, drive-in restaurants, drive-in theaters, golf courses, parks, playgrounds, poultry houses, recreational areas, schools, urban areas, lawns, landscape areas, trees, turf and zoos.

NOTE: For sensitive indoor/outdoor surfaces such as vinyl, plastic, fabric, wood floors, etc. test a small non-visible area first before spraying. This includes vinyl siding, outdoor

furniture, storm doors and windows, etc. It is possible that EcoEXEMPT® IC² may mar some sensitive surfaces. If spray gets on any sensitive surface that is listed, simply rinse with water and wipe off with clean cloth.

EcoEXEMPT® IC² may be diluted with water and applied with conventional application equipment including, but not limited to, compressed air sprayers and power sprayers. Prepare only the amount needed for immediate use and maintain agitation during use. Do Not Store Spray Solution Overnight¹.

Tank mix applications must be made in accordance with the more restrictive of label limitations and precautions. No label dosages may be exceeded. This product cannot be tank mixed with any product with label prohibitions against such mixing.

INDOOR USE

GENERAL PEST CONTROL: To

control accessible, exposed stages of crawling insects including, but not limited to, Ants, Aphids, Cockroaches, Cadelles, Cigarette Beetles, Dark Mealworms, Dried Fruit Beetles, Drugstore Beetles, Confused Floor Beetles, Fleas, Grain Mites, Fowl Mites, Spider Mites, Mites, Fungus Gnats, Phorid Flies, Nuisance Beetles (such as Lady Beetles), Mealybugs, Scale Insects, Red Flour Beetles, Rice Weevils, Saw-toothed Grain Beetles, Spiders, Spider Beetles, Termites, Thrips, Yellow Mealworms and Whiteflies in sites that include, but are not limited to, apartments, homes, restaurants, food processing plants, industrial installations and warehouses, dilute at the rate of up to 1 to 3 fluid ounces of EcoEXEMPT® IC² per gallon of water (use lower rate for maintenance service and higher rates for active infestations). Thoroughly spray upper and lower surfaces of plant leaves and non-visible areas where these insects are usually found

with special attention to cracks and crevices, niches, dark corners, drains and other harborage sites.

The product does contain plant oils that are inherently fragrant. When used in confined spaces, prolonged exposure to the fragrance may be objectionable to some individuals. For additional information call 1-888-326-7233.

OUTDOOR USE

PERIMETER TREATMENTS AND RECREATIONAL AREAS:

To control Aphids, Ants, Bees, Boxelder Bugs, Centipedes, Cockroaches, Crickets, Darkling Beetles, Firebrats, Fleas, Ground Beetles, Fowl Mites, Mites, Millipedes, Pillbugs, Silverfish, Sowbugs, Spiders, Ticks and Wasps. In compressed air sprayers, dilute 1 to 8 ounces of EcoEXEMPT® IC² per gallon of water (use lower rate for maintenance service and higher rates for active infestations) and apply at the rate of 2 gallons per 1000 square feet or

until area is thoroughly wet. Also apply to a band of soil and vegetation 6 to 10 feet wide around and adjacent to buildings. Treat the building foundation to a height of 2 to 3 feet with sufficient water for coverage. Make special efforts to spray areas where pest species congregate such, but not limited to, as waste receptacles, dumpsters, unoccupied picnic tables, the exterior of food handling establishments, and food pavilions. Additionally apply around potential entry areas such as, but not limited to, eaves, windows, doorways, porches, porch lights, and around utility boxes. For power sprayers, mix approximately 1 to 6 ounces of EcoEXEMPT® IC² per gallon of water (use lower rate for maintenance service and higher rates for active infestations) and apply until area is sufficiently covered (usually min. 4 gallons per 1000 square feet.) Maintain agitation. Repeat as necessary.

MOUND DRENCH METHOD - FOR CONTROL OF FIRE ANTS AND OTHER MOUNDING ANTS:
