Foliglo™

FOLIAGE CLEANER AND LEAF SHINE

FOLIGLO™ cleans and shines foliage without having to wash or wipe individual leaves. Just spray and wet foliage thoroughly with FOLIGLO until all dirt is washed off. Then let dry to a beautiful natural shine. FOLIGLO removes dirt, dust, calcium, iron, and water deposits. It cleans, shines, and brightens with one application.

FOLIGLO is safe and easy to apply. It is odorless and not sticky and does not clog plant pores. It is an ideal product for the professional interiorscape industry to clean and groom plants, either in new installations or in routine maintenance. Foliglo is biodegradable and safe to the environment.

DIRECTIONS FOR USE

Apply 1-3 fluid ounces of FOLIGLO per gallon of water, depending on the amount and type of dirt on the foliage and on the finish desired. Use the higher rate if a glossier finish is preferred. Apply to foliage only; do not apply to flowers. Avoid spraying on carpets, rugs, furniture, clothes, and other non-foliage surfaces. Use diluted spray immediately; do not leave in spray tank for extended periods of time.
